There are 4 players who have moved into the area to play football at Bellevue HS. The player names are [redacted] I was told that assistant coach Jeff Razore has been recruiting these players and persuading parents and helping them find places to move so that their kid can play football at Bellevue HS. Razore does his recruiting through his AAU basketball team by getting athletes on his team so that he can get to know them and their parents. Also, these players were spotted with their parents in the weight room visiting head coach Butch Goncharoff and Jeff Razore this past winter. In talking with other coaches from other sports at Bellevue HS they know that recruiting is going on by assistant coaches with Butch knowing all about it.

With recruits coming in every year my son's HS playing experience will be affected. I am not the only other parent that is fed up with this! It is time to stop letting Bellevue football run its program like it is a college one! A parent wanting their kid to go to Bellevue HS is one thing, but having assistant coaches, with Head Coach knowing about it, actively recruiting and convincing families to move and go to Bellevue HS to play football so that they can compete at a National level is another! If he feels the need to recruit athletes then he should have taken the private school job in California! I hope somebody takes this information and can start the process of eliminating recruiting at BHS.
