I was one of the few parents that worked with the investigators concerning the Bellevue football program.

I have serious concerns with the BSD involvement with this matter. I had shared sensitive information with BSD athletic director Lowell which he felt compelled to pass off to the Bellevue boosters. The boosters, parents and players were less than happy with my honesty and in returned attacked my family in very childish ways.

I have witnessed the booster attack any family that spoke honestly to the investigators concerning the program. I thought I would never see a booster program that has bullied people like the Bellevue boosters have done.

Bob Westinghouse was above board and did a amazing job considering a total lack of cooperation and obstruction from the BSD, coaches, boosters and parents.

My concerns with how Bellevue handled the last investigation leaves me with little faith in some of the BSD staff.

The finger pointing game by the Bellevue boosters is shameful at best.

I am hoping Kingco does not fold due to Bellevue booster threats of potential litigation. Bellevue needs to be accountable to the fullest extent.

It is time the Wiaa establish a full time compliance office to work with the leagues on enforcing the rules. The current self reporting system is grossly flawed in need of a overhaul.

Sincerely,

Joe O'Brien

Without doubt I would love to meet. My wife has been ill and getting treatment in Everett. Any chance we could meet in Everett.

Also, another Bellevue parent Chris [REDACTED] would be willing to talk with you. Chris also spoke openly and honestly about the program with Bob Westinghouse. Chris son [REDACTED] was one of the chosen players to attend Academic Institute.

Hey Joe...I am so impressed with your honesty, transparency, and courage to come forward. Would you be willing to meet with me at an undisclosed location...and discuss with me your experience? I will guarantee no notes will be taken and no one will know about our meeting. As KingCo League President I want to make sure I represent all parties who have a vested interest in justice being served. If you choose not to meet I understand. Again I truly appreciate your email.
